Ultimate Battle Born Challenge

Submitted by 2d Lt Katherine Read

On Saturday, September 30, 2012, two teams represented our squadron in the first Ultimate Battle Born Challenge. This was a competition that encompassed land, sea, and air (running, swimming, and aerospace). Each team was composed of four cadets. Activities included: sprints, obstacle courses for agility, a long distance run with the winner being the one with the most laps in fifteen minutes, an aerospace test, swimming relays, swimming the most laps in five minutes. Every person out there did their best. Each team chose one person to represent them in the long distance run.

It was inspiring the way other team members ran along with their tired team mates, cheering them all the way. It did not even matter if you were not on their team. Squadron lines were broken down as each member cheered on the others to do their best. Nellis Composite Squadron received third and fourth place out of eight teams and I am sure they will be back next year to compete for first place.
