(This message was sent to all Encampment cadre, their parents and squadron commanders/deputies.)

Dear Encampment Cadet Cadre and Parents,

Thank you for volunteering to serve as cadre for Silver's Edge II, the 2022 Nevada Wing Encampment. I'm happy to report that our encampment is at full capacity with 66 registered students to be split equally among our six flights.

Some of you still need to register for Encampment. If you have not, please do so as soon as possible at <https://CivilAirPatrolNVWG.regfox.com/2022-cap-nevada-wing-encampment>. This is important to make sure you are properly included in all communication, as well as showing me your commitment to attend. The registration fee is \$245. As I've told you, CEAP scholarships are available to cadre this year! So if you have a financial need, **you need to apply for CEAP today** at this [link](#), since I'm going to ask NHQ to shut down CEAP applications shortly.

The following link contains letters to you from Encampment leadership and a packet of forms to complete in order to finish the registration process. You should download and complete these forms, then give them to your squadron commander. Your commander will sign and submit the forms to the encampment registrar. **Please complete these forms in the next two weeks.** Do not procrastinate - believe me, the paperwork is the easiest of the challenges ahead of you. That will help us to develop a transportation plan and make other preparations for your arrival. Also, read over the packing list now so you have time to obtain any items you do not have.

Regarding the CAP Form 162 - this form may not be required. If you do not have physical or medical limitations that would prevent you from participating in all activities, you do not need to fill out this form or get a physical exam. Every year, parents spend time and money on doctor's exams that are not necessary. Questions about this - please call me.

For all cadets outside Nevada Wing: It is very important that I speak with you or your parents about your plans for transportation to Encampment. There are a number of issues that need to be worked through. Please ask them to call me at the number below.

For cadets inside Nevada Wing: Please start thinking about how you plan to get to Encampment. Maj Dinsmore and I will drive a van from the Las Vegas area with a full load of cadre, but other vans will be coordinated based on need which we will determine from your registration packets. If you are 18 or older, you are welcome to drive yourself to Wendover.

The health and safety of all participants are of the utmost importance. CAP recommends, **but does not require**, that each participant get vaccinated against COVID-19 and obtain a negative COVID-19 test before traveling to Encampment. This has changed from my previous communication. Please do not show up to encampment sick! At this time, we do not plan to require face coverings, but any cadet who chooses to wear one will be allowed to do so without question. If you do, and want to bring your own masks, please make sure they meet the uniform requirements in [CAP Regulation 39-1](#) on page 18. Otherwise, new masks will be supplied daily at encampment for those who need them.

Thank you for your prompt attention to these instructions. See you in July.

Best,

Lt Col Pete Goertzen

2022 Nevada Wing Encampment Commander
Civil Air Patrol, U.S. Air Force Auxiliary
